

## CHOATE AND PALMER WARN OF GAS PERIL

Urge Chemical Research in  
United States to Offset Ger-  
man Dye Facilities.

## AMERICA GETS SECRETS

Formula for Bomb Able to De-  
stroy Berlin Is Told About  
to Kiwanis Club.

Joseph H. Choate, Jr., counsel to the Chemical Foundation, told the members of the National Society of New England Women at the Waldorf-Astoria yesterday that if every gun the Germans have destroyed they will still be in a position to launch a deadly attack against any nation so long as they retain their chemical facilities, speaking in Atlantic City yesterday before the Kiwanis Club. A. Mitchell Palmer, former Attorney-General, said that the next war would be fought with chemicals and not with the military and naval armaments of today.

Mr. Palmer declared that this country, through seizures by the Alien Property Custodian during the war, obtained many valuable chemical secrets from the Germans, which were developed to such an extent that the war continued one aerial bomb that had been devised by American experts could have been eliminated Berlin from the map of Europe. "It would be far better," said Mr. Palmer, "for the United States Government to appropriate \$1,000,000 for chemical research as a means of defense than to spend a billion dollars for battleships to be junked in ten years. America is now on the way to chemical supremacy. The great strength of the industry has been wrested from Germany, and lies today in the United States."

Mr. Choate declared that the Germans would always be dangerous and capable of attack because of the extraordinary development of the German dye industry, which is interchangeable with the explosives industry.

The Germans made every pound of their poison gas in fact, and without changing them in the least. Chlorine and phosgene were normal materials in dye making.

"When the Germans made their first gas attack," he continued, "the Allies stood on the very edge of utter defeat. Had the Germans known the value of their experiment, had they prepared it in advance on a large scale and driven it home ruthlessly, the defeat of the Allies would have taken place then and there. But, by the grace of God, they did not know it."

"An otherwise unarmed nation is in a position to develop a chemical attack which, against a nation not chemically armed, will be simply undefeatable. The Germans are in this position. We are in that same happy position, and so to a certain extent are the British. The French are approaching it. If all our guns and planes and tanks and rifles were destroyed we should be able to carry on a chemical war as well as anybody else, or very nearly as well."

"But if we lose our organic chemical industry we lose that advantage. The British do not mean to lose it. They have passed an act of Parliament totally excluding German dyes except such as may be licensed for impregnation, and they license only those which cannot be obtained by British make. The French have adopted the same system."

**POLICE IN HOLDUP, DISMISSED.**  
Three policemen of the Ocean avenue police station in Jersey City, arrested in Bayonne March 1 on charges of taking part in a holdup at the station of John Spachowicz were dismissed from the force yesterday. They were found guilty at a police trial of being absent without leave and conduct unbecoming an officer. The officers were William Chilton, Christopher Gearloff and Miles Shinn.

## WHY POOH POOH GHOSTS? PSYCHIC RISES TO INQUIRE

Spirits Are Not Camera Shy Because Pictures of Them  
Have Been Taken, Says Dr. Carrington.

Chain clanking ghosts, that smash the family crockery and roll hogheads round the cellar, may properly be laughed at, but ghosts there are nevertheless, and haunted houses. At least, Dr. Howard Carrington told an audience at the Anderson Art Galleries last night, that the Society for Psychical Research has unearthed some pretty-live samples.

Most ghosts, Dr. Carrington explained, are of the common garden variety; that is, they are no more than telepathic hallucinations of the ghost seer. But, he asked, how are you going to get around the fact that apparitions have been photographed; that the same ghost has dropped in on several persons at the same time, exhibiting itself full face to some and in profile to those on the side?

There was no answer, and Dr. Carrington confined himself to discussion. But Prof. Hideo Kimura, a healer from Tokyo, and Mme. Kimura, assisted by Count Tolstoy, Edwin Markham and a few others, did some parlor tricks which were more than ordinarily interesting.

Mme. Kimura, who weighs only ninety pounds, outdid Johnny Coughlin, and those on the stage were able to lift her only when she was willing. Count Tolstoy, acting as end man, was forced to yield to the psychic strength waves.

It was for the purpose of inspecting the terminals, two in Manhattan, one in Brooklyn, another in Queens and one in The Bronx, that Mr. Cadie was in the city yesterday. The bill providing that the barge canal be turned back to the State by the Federal Government has been passed and the transfer should take place before long. This act alone provides that the Federal authorities shall sell its canal boats to private individuals. These should furnish a nucleus for private lines, which Mr. Cadie hopes will be formed for the purpose of going a transportation business on the canal. He will do everything in his power to encourage such business and the formation of canal men out of the foodstuffs can be got readily into the hands of the people from the terminals in this city.

In his investigations Mr. Cadie has discovered that the canal property has been loaded down with useless employees. For one bridge he found eight watchmen were being paid. There will be a lot of canal men out of jobs when the State resumes control.

**PRATT WILL RETAIN  
CONSERVATION POST**  
Commissioner Irons Out Trouble  
With Organization.

George D. Pratt of Brooklyn will be re-appointed Conservation Commissioner by Gov. Miller. This was learned definitely last night from a close friend of the governor. It was explained that Gov. Miller had been so busy he had been unable to take this matter up. Before reappointing the Commissioner he wanted a chance to sit down with him and go over plans for the department.

The trouble between Mr. Pratt and the Onondaga organization has been all smoothed out it was said.

## REPORT TYPHUS CASE FROM THE KROONLAND

Girl Who Arrived March 3  
Down With Disease.

Another case of typhus, that of Thorne Vorachek, a 12-year-old girl who arrived here March 3 on the steamship Kroonland, was reported yesterday to the office of Dr. Royal S. Copeland, Health Commissioner. When the girl arrived she was taken to 558 East 140th Street, The Bronx, and later to the Willard Parker Hospital, where her case was diagnosed yesterday as typhus.

The mother of the child, Mrs. Lottie Vorachek, who arrived here with her daughter, is in Gouverneur Hospital, ill from what has been diagnosed as sleeping sickness. Because of the daughter's illness she will be examined to make sure that she is not suffering from typhus.

The Health Department announced that the premises had been fumigated and that all persons who had been exposed were under observation. There was only one case of sleeping sickness reported yesterday. That was in Brooklyn.

**FREES NEWSIE, SCOLDS COP.**  
Magistrate Says Public Enjoys the  
Noise Boys Make.

Irving Slown, 17 years old, a news boy, was acquitted yesterday at Broadway and Forty-fourth street by Patrolman Joseph B. Reilly. The officer entered a complaint that by crying his wares the youth had made "an unusual and improper noise to the inconvenience of pedestrians." Magistrate McGuire in Jefferson Market court reproved the officer and set Slown free.

"Newsboys are not a nuisance," he said, "the public enjoys them."

## HUSTLING TRAFFIC MAN TO BOSS BARGE CANAL

Cadle to Go Right After Busi-  
ness for State Waterway.

The barge canal of New York is to have a real, live, hustling traffic manager, Charles L. Cadie of Rochester, who as State Superintendent of Public Works is in charge of the canal, said yesterday he proposed to go right out after business. Shippers will know that the State of New York has a mode of transportation with which, in the matter of cost, no other can compete.

One of the great objects of Supt. Cadie will be to stimulate the transportation of produce and food products through the canal. He is thoroughly in sympathy with the idea of Gov. Miller that the cost of living may be reduced materially if the canal, with its convenient terminals in this city, should be utilized for such transportation.

It was for the purpose of inspecting the terminals, two in Manhattan, one in Brooklyn, another in Queens and one in The Bronx, that Mr. Cadie was in the city yesterday. The bill providing that the barge canal be turned back to the State by the Federal Government has been passed and the transfer should take place before long. This act alone provides that the Federal authorities shall sell its canal boats to private individuals. These should furnish a nucleus for private lines, which Mr. Cadie hopes will be formed for the purpose of going a transportation business on the canal. He will do everything in his power to encourage such business and the formation of canal men out of the foodstuffs can be got readily into the hands of the people from the terminals in this city.

In his investigations Mr. Cadie has discovered that the canal property has been loaded down with useless employees. For one bridge he found eight watchmen were being paid. There will be a lot of canal men out of jobs when the State resumes control.

**PRATT WILL RETAIN
